- Can be used to re-wet D-Lead® Surface Wipes

Field Test Results on 250 year old window

USEPA Window Weatherization Demonstration Project,
Providence, RI September 2008

WHY D-LEAD®?

Lead is heavy, sticky and holds a static charge making it difficult to remove with general cleaners. The D-Lead® family of surface cleaners are specially formulated to wet and lift lead paint dust reducing post-renovation cleaning time.
